

# RECONDITIONED COUPLERS & YOKES

We specialize in reconditioning all types of couplers, yokes, brake valves, angle cocks, bell cranks and more. We maintain a large selection of fully finished inventory in order to offer short lead times on common part types. Our services meet AAR Certification M-212 and M-1003 and include classification, reconditioning, heat treatment, and finishing.

**Our products include:**

- Reconditioned coupler bodies and yokes
- Fully assembled couplers (new and reconditioned)
- Knuckles and small parts for couplers (new and reconditioned)
- Reconditioned draft gears
- Reconditioned air brake parts

# CAPABILITIES & SERVICES

## RECONDITIONING SERVICES

- All purchases for reconditioned couplers are outright pricing.
- If reconditioned couplers are not available, we will offer NEW couplers for purchase.
- If reconditioned and new couplers are not available, you can send in your cores for repair.

## REPAIR & RETURN CUSTOMER CORES R&R

- SRS Peoria location can send bins to your location for shipping cores to SRS for repair and return.
- Received cores are inspected to determine repairable or scrap condition and the customer is informed.
- Customer has the option to replace the scrap coupler with an outright purchase.
- A customer purchase order is required for all purchases.
- Turnaround time is one week from material inspection.

## AIR BRAKE UNIT EXCHANGE

- Customers send in their air brake cores.
- Once inspected, we provide counts, pricing, and lead time.
- Air brake cores are shipped back in crates to prevent damage.
